

# Thermal conductivity 24 - thermal expansion 12 : joint conferences, October 26-29, 1997, Pittsburgh, Pennsylvania, USA

Technomic Pub. Co. - Experiments and mathematical modelling of controlled runout table cooling in a hot rolling mill

Description: -

-

Structural frames.

Reinforced concrete construction.

## Thermal Conductivity 29: Thermal Expansion 17 : Joint Conferences : June 24 ...

The rapid release of a spatially concentrated source of energy results in the production of a decaying blast wave in the surrounding gas. Co-authors: Liliana Zambrano, Fernando Castillo and Laureano Gonzalez Refereed Abstract, Poster.

## Micro/nano scale phenomena and thermal properties. Keynote addresses

Tomita Development of Phase-Field Model and Computational Procedure During Static Primary Recrystallization Transactions of JSME, Vol. Ohno Accuracy evaluation of phase-field grain growth models with different functional forms 55th Annual Technical Meeting of the Society of Engineering Sciences SES October 10-12, 2018, in Madrid, Spain. Co-authors: Qi Li and Adam YousefZadeh Refereed Abstract, Full Paper in Conference Proceedings.

## HySafe Wiki

Tokunaga Development of dedicated modeling and database for elucidating fuel degradation mechanism — METI Project in Japan — Materials Modeling and Simulation for Nuclear Fuels October 14-16, 2013, Chicago, Illinois USA. Experimental deflagration and detonation limits for

hydrogen.

### **Conference Papers**

It should be noted that equation 1 describes the kinetic energy transfer on the larger scales as well as the viscous dissipation on the micro structure despite the apparent absence of the molecular viscosity. Scutt, Polly and Dixon, Mark and Appleton, Jason P.
