## Student athlete perceptions of academic success and athlete stereotypes on campus.

None of the student-athletes in the Fall Only sample had attended the Summer Bridge program. In this study one of two social categories of an applicant was subtly cued for reviewers — gender or ethnicity. In addition, the findings indicate that while student-athletes were considering a specific occupation they were also interested in exploring other options before making a career decision.

## Comparing Two Groups of Student

Examining academic and athletic motivation among student athletes at a division I university. He died 30 hours later, leaving behind three children and his wife, Billie.

## Will a Category Cue Affect You? Category Cues, Positive Stereotypes and Reviewer Recall for Applicants

Despite the positive aspects associated with college athletics, researchers have also documented some drawbacks associated with athletic participation.

## Comparing Two Groups of Student

Some professors at this institution made comments that suggest athletics offer benefits to participants. A one-way multivariate analysis of variance MANCOVA was utilized to examine differences in goal instability, vocational identity, and career decidedness levels in a sample of 100 college student-athletes. From the open-ended questions, half of the total responses related negatively to the issue of missed class for athletic events.

## The Daily Tar Heel will no longer use the term 'student athlete'

Mental representations of persons and personality.

## **Comparing Two Groups of Student**

Outcome dependency and attention to inconsistent information. The educational attainment of college athletes. Stereotyping based on apparently individuating information.

### **The Daily Tar Heel will no longer use the term 'student athlete'**

In addition, athletic participation can enhance individuals' social identity, as participants become members of a valued social group on campus.

### **Shattering the Myth: Jaden Deitzler proving doubters of Lebanon High kids wrong**

Implications for Practice Learning more about the career aspirations, goals, and decision-making status of college student-athletes can provide valuable information to support their academic and career advising process.
