Nutrition Education Resources & Materials

Of the eight essential components of a comprehensive HIV prevention program that are described in the community planning guidance document issued by CDC, four relate specifically to the interventions described in these Guidelines. Contracting With Community-Based Organizations Request for Proposals In many cases, a health department may determine that the best approach for reaching affected populations is by contracting with community-based organizations that have experience serving specific populations.

Patient Education

Avoid jargon and acronyms, and use plain language to make it easier to read. This includes specific knowledge of the scope of services available, the protocol for accessing these services, and contact persons working with local agencies. The companion picture card book includes colorfully illustrated flip chart pages and stand with talking points to reinforce key heart health prevention messages.

Top Tips for Creating Patient Education Material

The release should clearly state permission to use the photograph and the conditions for use.

Guidelines, Laws, & Standards

These factors can make a difference in whether messages or materials contribute to meeting public information objectives.

Educational Materials for Health Professionals

An informal needs assessment may occur through frequent conversations and personal interactions with colleagues and clients.

Educational Materials for Health Professionals

· When possible, use simple, common words instead of less familiar technical terms. Collaborative relationships are also referred to as coalitions or partnerships.

FREE Early Childhood Physical Activity Resources/SHAPE America

A strong relationship with STD clinics, TB testing sites, HIV counseling and testing clinics, and other health service agencies may be extremely beneficial to successfully recruiting persons at high risk who are appropriate for this type of intervention. Health education is a component of Coordinated School Health and Safety Programs. Lohr G, Ventura MR, Crosby F, Burch K, Todd K.
