. Calibration data indicate that these sensors yielded repeatable results and have the potential to meet the accuracy goal of measuring local heat flux to within 5%.

## **May**

This curriculum packet contains two lesson plans about cities and architecture intended for use with students in upper elementary grades and middle schools. Along some spirals, the radius of the helix was seen to change abruptly from one value to another and then back again, providing a mechanism for storing information in terms of the length and radius of a section of a spiral.
