## List

Trees with limited lifespans have been replaced with a formal allée of aerial hedges; in all, the plaza includes approximately 100 new trees, more than twice the previous number.

## Featured Projects — OLIN

The National Gallery of Art Sculpture Garden is a welcome oasis in the vast scale and bustling environment of the adjacent National Mall. . The strategy is built upon the consensus of a diverse group of stakeholders that characterize the market: large scale food wholesalers, family-owned farms that cater to the market, brick and mortar retailers, and entrepreneurs that make up the informal economy.

## List

The visitor center serves as a multi-functional destination with an all-weather café, bookstore, public restrooms and public exhibition space for art and gatherings.

## Featured Projects — OLIN

The landscape design expresses these ideas formally but also through the selection of landscape materials. Stormwater filtering and reuse have reduced runoff from the Target Field Station site by 27% and total suspended solids in the runoff by 97%. The classical language of the building architecture shapes the vocabulary of materials and sequence of spaces in the landscape, though OLIN infuses contemporary touches throughout the design to cater to the expectations of modern residents.
