### South America: Original Cultures two

The of Ecuador, of Peru, and of Bolivia were the three most important Native peoples who developed societies of sedentary agriculture in South America.

### A Brief History Of Indian Civilization

Because the earlier levels at Tiwanaku show Pucará-type pottery, it is apparent that the Pucará culture was a forerunner of the Classic Tiwanaku styles. The data indicated that the individual was closely related to present Indigenous populations of North America.

### List of indigenous peoples of South America

Among those remains were evidence of constructed roads, bridges and large plazas. As the country is mostly rain forest, escape was not difficult.

### History of Meso/South America

The nationalization and privatization of industry, as well as the influence of indigenous groups, are the primary political issues affecting South America.

### History of South America

Genetic research has shown that all indigenous peoples of the Americas are descended from the same ancestral group except for the Arctic peoples the Eskimo and , who descend from a second migrant wave.
