## 25 FNOP: Medicine ideas

Applied hot to an affected area of the body, it serves to stimulate circulation and dissolve stagnation. It is also very good for relieving headaches—dip a cloth in the oil and rub the forehead with it.

## Full text of Common Sken

I have used it on three insane patients who had cut their throats; in one of the cases there was dead cartilage to contend with, but there was no smell. In pruritis, whether anal or vulvar, when accompanied by fissures of the skin it will be found useful and curative. These French towns and I have seen many are totally wrecked.

The secondary dilatation of the pupils shows, he thinks, advanced changes in the ciliary ganglia with beginning destruction of the transganglionic third nerve fibres.

## Pustular lesions

Soaked in water — relieves thirst due to diabetes. It is not necessary that it should be fed for at least eight hours after birth, and at first the quantity fed it must be small. Finally, he believes that the complete type of Argyll Robertson pupil can not be produced by a lesion anywhere save in the ciliary ganglion, and even there can not be produced save by the selective action of a toxin or germ, which up to the present has been shown to be the result only of syphilitic infection.

Ghee also reduces the desire for eating animal products. The application of the wet dressing for a few days, gently cleaning off the parts each time the dressing is changed, will usually in a short time put the diseased skin in the best possible condition to receive the good effects of the other healing remedies. Thus the third dimension of health involves healthy spiritual relationships.

When the condition is brightly erythematous.

## **コミュニティー**

It is well to put another piece of linen around the cord, which may then be turned upward or to the left side, and the binder applied. To put on a clean under-sheet, plait one side of it, and place that under the patient while she lies on her side, then let her turn on her back or other side onto it, and draw out the plaited part.
