Psychiatric services of the Veterans Administration, United States 1977

VA primary care-mental health integration: Patient characteristics and receipt of mental health services, 2008—2010. To test the system, the GAO sent 14 text messages to the VCL; four of the messages went unanswered.

About VA Mental Health: Guidebook

There are no requirements for facilities to implement SeRV-MH; the only requirement is that they are able to assess and treat the mental health needs specific to OEF and OIF veterans. In 2015, RAND highlighted many of these same data insufficiencies and recommended that the VA improve data collection related to community care to improve processes and outcomes for veterans.

9 Timely Access to Mental Health Care

You call that number, and you talk with someone, explain to them what your situation is, and then you are transferred.

Veterans Administration Mental Health Care

All VHA emergency departments are required to have mental health providers on site or on call. Examining gender differences alone, without taking other factors into account, may not provide an adequate picture of women veterans' current mental health service needs.
