The universe of Daumier Claude roger

Two Portraits by Sergue   Eisenstein, the Russian filmmaker: left Daumier, 1942. Although he was living a humble life away from Paris, in poverty and debt, and with failing eyesight, some belated recognition of his life's work begin to appear in the last years and months of his life. Apt basically works on the repository.

Daumier Portraits

Daumier's caricature of , titled Gargantua, was published in December 1831. About one hundred artist submitted sketches and designs anonymously to a jury that included , , , , , and.

What Is the Big Bang?

New York, New York: McGraw-Hill.

The Three Judges

There is a room-full of caricatures in the museum in Winterthur.
