It takes some specific indication in the text that an explicit generalized conditional or universal categorical proposition is functioning as a warrant to rebut the presumption that it is a ground.

Argumentation theory

To support this conjecture, we perform another ablation test to judge the effectiveness of other features in absence of word vector feature group. In Proceedings of the 50th Annual Meeting of the Association for Computational Linguistics: Short Papers- Volume 2, pages 208—212. A theoretical justification of this method through a dialectical understanding of argument, a critical examination of Toulmin on warrants, a thorough discussion of the linked-convergent distinction, and an account of the proper reconstruction of enthymemes follows.
