Online Math Courses

MATH Start, an intensive 8-week program, offers instruction for students who need to increase their math proficiency in particular before starting credit classes.

Online Math Courses

Exploration of instructional strategies to support mathematical learning of K-16 students with focus on your own practice. There is no specific list of courses for the certificate. Proprietary Interest Policy We will disclose, in advance, any proprietary interest in any product, instrument, device, service, or material to be discussed during the learning event, as well as the source of any third-party compensation related to the presentation.

Continuing Education Classes

Tuition and fees are expected to rise each May, typically announced by the Iowa Board of Regents in March. Workforce Education Center WEC The Workforce Education Center provides free vocational skills training; high school equivalency preparation for teens; and youth programs.

Mathematics: Secondary Teaching Emphasis (MA)

As the largest continuing education division among all the CUNY campuses and one of the most comprehensive in the country, we offer a wide range of programs that serve thousands of New Yorkers of diverse cultures, ages, ethnicities, and educational and economic backgrounds. For more information or call 718 482-5306.
