FDA advises that there are no corrective actions specifically required for CGMP's in these HACCP regulations. Seller concentration and costs could both be high in markets that are small. The comment maintained that this case cannot be said to support FDA's proposal to impose a complex and detailed regulatory scheme on pasteurized products.

Federal :: Hazard Analysis and Critical Control Point (HAACP); Procedures for the Safe and Sanitary Processing and Importing of Juice

However, CGMP's are general in nature and apply to all types of facilities that process all types of food products from highly processed foods to raw foods that are merely packaged and labeled. To analyze the effects of franchising on strategic behavior in chain establishments, differentiating between intra-chain competition and competition with other chains and independents. For example, pesticide residues above tolerance may be potential hazards.
