## Polio and Its Aftermath: The Paralysis of Culture

It provides them, whether they are disabled or not, with an extension of the body. Would the vaccine trigger a return of polio? Domesticity also includes child raising and the marital relationship—areas that we found to be equally contaminated with bias against female independence. Female physicians will produce an era in the history of women . . . We would, in all deference, suggest that, first of all, there will be candor in the patient to the female physician, which could not be expected when a sense of native delicacy and modesty existed to the extent of preferring to suffer rather than divulge the symptoms.

## The Mental Health Home Care Program: Beijing's Rural Haidian District

Just that kind of erasure is, of course, a common trait of traumatic incidents in the development of individual human beings as well as of bodies politic.

## For Her Own Good: Two Centuries of the Experts Advice to Women

This exploitative practice was the origin of Live Aid: the studios, and later the celebrity community, raising funds in the private sector, seemed to make the public sector both weak and unnecessary. The money had begun to come together with the men.

### **The Mental Health Home Care Program: Beijing's Rural Haidian District**

In the section which follows we go back to the origins of the Woman Question, when science was a fresh and liberating force, when women began to push out into the unknown world, and the romance between women and the experts began. In North America, the ouster of female healers took place over a century-long struggle which ebbed and owed with the deeper social changes of the times.
