Age of Conan

This is for a very natural reason as story is best appreciated once.

The Spell of Conan

The story of Conan, the huge Cimmerian who slashed his way through the exotic realms of the Hyborian Age, in the dim reaches of man's prehistoric past, eventually making himself King of Aquilonia, the greatest and richest of the Hyborian lands. With this, you gain access to mounting trade skills, village building, different formation tactics, and much, much more. The constant interruptions of care workers at home, combined with frequent trips to various for her care, made it nearly impossible for Howard to write.

Robert E. Howard

Schweitzer praises Howard works throughout, but he also spends considerable wordage on complaints of laziness, repetition, weak plotting, etc. My name is Gaute Godager.
