The league between the three usurpers was finally concluded on the 27th of November, and the lists of the proscribed finally arranged, among whom Cicero and sixteen others were marked for immediate destruction, and agents forthwith despatched to perpetrate the murders before the victims should take alarm.

**Autoren: Cicero, Marcus Tullius**

To his dependents he was indulgent and warm-hearted, to his friends affectionate and true, ever ready to assist them in the hour of need with counsel, influence, or purse; somewhat touchy, perhaps, and loud in expressing resentment when offended, but easily appeased, and free from all rancour. Each of these is explained at length, and the book closes with a debate on the degrees of the honestum, that is, the method of deciding, when each of two lines of conduct is honestum, which is to be preferred as superior honestius to the other. Magna etiam discidia et plerumque iusta nasci, cum ali- quid ab amicis quod rectum non esset postularetur, ut aut libidinis ministri aut adiutores essent ad in- iuriam, quod qui recusarent, quamvis honeste id facerent, ius tamen amicitiae deserere arguerentur ab iis, quibus obsequi nollent; illos autem, qui quidvis ab amico auderent postulare, postulatione ipsa proiiteri, omnia se amici causa esse factu- rus: corum querela inveteratas non solum fa- miliaritates exstingui solere, sed odia etiam gigni sempiterna.

De natura deorum libri III. The popularity of the orator rose higher than ever; the friendship of Pompey, now certainly the most important individual in the commonwealth, was secured, and the success which attended the operations in the East smothered if it did not extinguish the indignation of the senatorial leaders.
