1994 Volcanic activity in Alaska: summary of events and response of the Alaska Volcano Observatory

For these volcanoes, the AVO monitoring program relies chiefly on receipt of pilot reports, observations of local residents and analysis of satellite imagery. Series Title: Other Titles: Summary of events and response of the Alaska Volcano Observatory.

1995 volcanic activity in Alaska and Kamchatka summary of events and response of the Alaska Volcano Observatory

The agency has over 10,000 employees that collect, monitor, and analyze data so that they have a better understanding of our problems. Download the latest version of , free of charge.

1995 volcanic activity in Alaska and Kamchatka summary of events and response of the Alaska Volcano Observatory

Of these volcanoes, AVO has a real time, continuously recording seismic network only at Iliamna, which is located in the Cook Inlet area of south-central Alaska fig. . During 1994, the Alaska Volcano Observatory AVO responded to eruptions, possible eruptions, or false alarms at nine volcanic centers-- Mount Sanford, Iliamna, the Katmai group, Kupreanof, Mount Veniaminof, Shishaldin, Makushin, Mount Cleveland and Kanaga table 1.

1992 volcanic activity in Alaska : summary of events and response of the Alaska Volcano Observatory / by Robert G. McGinsey, Christina A. Neal, and Michael P. Doukas

The remaining unmonitored volcanoes are located in sparsely populated areas of the Wrangell Mountains, the Alaska Peninsula, and the Aleutian Islands fig. During 1994, the Alaska Volcano Observatory AVO responded to eruptions, possible eruptions, or false alarms at nine volcanic centers-- Mount Sanford, Iliamna, the Katmai group, Kupreanof, Mount Veniaminof, Shishaldin, Makushin, Mount Cleveland and Kanaga table
