## Community cohesion

August 2019 Europe today confronts three overlapping crises — all of them of its own making. If you know of any other useful websites you think we should include, please get in touch.

## Emergency planning

Geographic variations across clusters Table S3 suggest a need for local WTR assessments as the basis for tailored curricular efforts to enhance response willingness rates in LHDs.

## A Blueprint for Europe's Just Transition

Overseas Development Institute The ODI has about how the pandemic might change international cooperation; plus information about trade with Small Island States and the impact on trade in Sri Lanka. Local government response to COVID-19 Local and regional governments around the Commonwealth, and throughout the world, are at the core of the COVID-19 crisis.

## Fasting and surgery timing (FaST) audit

Drawing upon the experience of national governments around the world, we foster global best practice and develop cohesion between government departments, emergency services, the military, tourism, aid agencies and more. We have also found that individuals that work within more cohesive teams identify more with their team members and have greater levels of interests in the overall team goals and achievements above and beyond their individual achievements. The growing sense of marginalisation and isolation of British Muslims raises concerns for radicalisation.

## Using economic development to improve health and reduce health inequalities

Crane JS, McCluskey JD, Johnson GT, Harbison RD: Assessment of community healthcare providers ability and willingness to respond to emergencies resulting from bioterrorist attacks. Laurent J: Investing in America's Health A State-by-State Look at Public Health Funding and Key

Public Health Facts.

**Cambridge Emergency and Displacement Group (CEDG)**

Essential to the pathway to a Green New Deal for the EU is powering a transnational movement that can — despite its disparate concerns — stand together behind a single policy vision.
