Gamification Group

The low-information home has similarly turned into a high-information node in a network of data and commodity flows. But every description of a process is itself a product of that process. The problem of asylum seekers has become a permanent social state.

Transurbanism: A Study of the Emerging Global Network of International Cities

The haircut and makeup by Adam Harvey CV Dazzle and the jewelry by Ewa Nowak propose a way to trick facial recognition without forfeiting a nice and glamorous appearance.

TransUrbanism — V2_Lab for the Unstable Media

The Future of Urban Form. A city is not really just a network of intersecting information and commodity flows; that would be too meager a representation.

Transurbanism

On that basis, the method follows a diagnostic-anagnostic-prognostic algorithm.

Transurbanism: A Study of the Emerging Global Network of International Cities

Traces of this practice can be found in many protests and interventions organised to claim minority rights, to protest global warming, or to cancel the debt of African countries.

TransUrbanism (Introduction) — V2_Lab for the Unstable Media

Although some solutions favor hiding or replacing the face completely, many others just modify it, still adhering to the real shape. Once the ideal

has been invoked, it becomes possible to portray the decline in vivid colors; to depict how the urban fabric has been torn and fragmented by the introduction of railways, cars, air transport, TV, computers, the Internet; how the antithesis between the market square and the town perimeter has been replaced by one between the city center and the suburbs; and how nondescript satellite towns then arose, all looking the same but all pretending to be different, while the original centralized city has turned either into an authentic ghetto or a simulated open-air museum.

Transurbanism Essays by Joke Brouwer, Arjen Mulder.

Transurbanism ARTBOOK

Therefore, each chapter is completed by running through the ITA case study in its three methodological diagnostic-anagnostic-prognostic phases. On-Flight Statistical Digest, 1991 ITU Telecommunications Yearbook, 1987 Municipal Yearbook. Faces are a critical part of our identities and currently there is an ongoing tension between human faces and city surveillance systems.
