there is an escape, once the response team responds, there will be fewer officers left to manage the overcrowded prisoners, placing the staff at greater risk.

Prison Overcrowding and It's Impact on the Criminal Justice System as

The ruling, however, did not specify the particular measures that the state must implement to comply. Overcrowded prisons: the case of England and Wales The case of the English and Welsh prison estate highlights some of the problems resulting from overcrowded prisons.

A Status Report: Reducing Prison Overcrowding in California

One important factor, at least in the United States, is a punitive public.

Prison Overcrowding

Fearful inmates whose fear has turned to anger frequently take it out on the officers. In fact, today, there are more people incarcerated for drug offenses than the total number of people who were in prison or jail for any crime in 1980, which is an astounding fact to consider.
