Stations in this group were 6WB Katanning, 6MD Merredin and 6BY Bridgetown. On the 8th of August, lie took up a plant of wheat, which had been sown in the beginning of June, and he divided it into eighteen parts, each of which were transplanted separately; about the latter end of September they were again removed, and divided into sixty- seven roots; in the end of March following, and beginning of April, they were separated into five hundred plants, which yielded twenty- one thousand one hundred and nine ears: and this single grain thus yielded five hundred and seventy thousand fold; the produce measuring three pecks and three quarters, and weighing forty- seven pounds.
