## **Superintendent's Fieldbook : A Guide for Leaders of Learning**

Intended for urban, rural, and suburban superintendents, the book is designed to help these district leaders improve their effectiveness, learn from best practices, and fully understand the tenets of NCLB and other critical legislation. In updating The Superintendent's Fieldbook, the authors draw on their five-year experience with some 100 members of the National Superintendents Roundtable. This is where school leaders and aspiring superintendents can learn how to survive on the job, bargain like a pro, engage with the public, and work with their boards while tackling the achievement gap and explaining to the public what's right with American schools.
