Hatching success of Brown Pelican *Pelecanus-occidentalis* eggs after contamination with oil. In Environmental Characterization and Biological Utilization of the North Aleutian Shelf Nearshore Zone.

Sea ice scouring on the inner shelf of the southeastern Canadian Beaufort Sea

Lantuit, 2019: Rapid CO₂ release from eroding permafrost in seawater. Conservation of marine birds of northern North America. These measurements show that there are vertical gradients in the water column and that the stable carbon isotope composition of organic materials in the sediments is significantly different from sedimenting materials in the overlying water column.
