CPGB: History of the Communist Party of Great Britain

In resolute action and emulation of the high-spirited and farseeing but practical social revolutionists of Russia, minor differences will be relegated to their proper place, and the Communist Party of Great Britain, belated in arrival though it be, will play its part in the overthrow of capitalism and the raising of the first real common civilisation built by workers for workers. Idris Cox, one of the most important Welsh communists of the inter-war years, has left a shorter autobiography. This necessitates a revolutionary transformation of society, ending the existing capitalist system of exploitation and replacing it with a socialist society in which each will contribute according to ability and receive according to need.
