## The end of free college in England: implications for quality, enrolments, and equity

. As if these were not body blows enough, in recent times the subject has been hit by a further set of challenges from a different direction. The movement to decolonise the curriculum is really just the tip of the iceberg when it comes to work that needs to be done to make English more relevant and appealing, if it can be.

## Declining enrolments and its ramifications for special education (1978 edition)

First and foremost, in order to achieve any real increase in GER at the higher education level, it is imperative to start at the elementary, middle and senior school levels where early dropouts, limited learning levels, rampant and discriminative segregation based on socio-economic backgrounds and learning levels, infrastructural and human resource bottlenecks and low-quality private provision continue to remain central challenges. However, real progress will only be made when senior educationists and governments make a true commitment to fight this battle: money, resources, and bureaucrats required to make things happen.

## Gender in National Education Policy 2020

The wealth of any nation is more dependent upon the development of its people than upon the accumulation of material capital. It is quite obvious that the Governments have a responsibility to co-ordinate and strengthen local responses, create policy and establish a regulatory framework. How might English literature count to those outside its traditional provinces of cultural and national appeal? But the days when theory was king were heady days indeed, with students flocking to learn the secrets of complex postmodern orthodoxy.

English departments might be seen, also, as semiology departments involved in studying the signs and meanings of such things. Because of austerity measures, many other disciplines have also come to be housed in English, including creative writing, non-fiction prose, rhetoric, global anglophone

literature and linguistics.
