Why Strategic Decision Making is an Important Process for your Organization?

It is difficult for an organization to hide a lack of capabilities. So buy the book, even if you work for MSFT. I didn't connect with the content until the second part where the ideas were laid out more clearly with a combination of idea and then application blog post example.

Why Strategic Decision Making is an Important Process for your Organization?

While the book uses the Windows 7 development effort to accomplish these goals, the content is relevant to any large complex effort that has multiple internal and external stakeholders and requires the people working on it to have responsibility and accountability for the effort. Using the Blogs posted by Steven Sinofsky for Microsoft employees, the dialogue makes what otherwise would be a very dry book a very interesting read. He writes about the importance of collaboration, communication and clear directions.

Why Strategic Decision Making is an Important Process for your Organization?

Deciding upon a particular action plan a company also involves in altering strategies based on observed outcomes.

One Strategy: Organization, Planning, and Decision Making

From the Inside Flap This book challenges traditional views of strategy and operational execution—views that say strategy comes from a small group of select people or that an innovative strategy can only emerge from a distinct organizational spinoff. Here, Sinofsky shares his experiences and point of view through an internal blog site that discusses some of the management processes put to work while developing Microsoft Windows 7. The impact, strategic management and leadership styles can have on strategic decision making can result in profitable consequences.

Why Strategic Decision Making is an Important Process for your Organization?

Any person, corporation, or industry should know their current affairs, where they are and what they want.
