developing specifications and structures for the use of surplus water as industrial power. He had already received hand-drawn hieroglyphics with possible translations from various regions of the globe. Immigrant workers toiled for twelve or more hours per day in all kinds of weather.

Erie Water West : A History of the Erie Canal, 1792

Collection of fiction, poetry, essays, and other works about the Erie Canal written over the course of its history. A longtime member of the American Philosophical Society in Philadelphia; the Natural History Society of New York City; the American Antiquarian Society in Worcester, Massachusetts; and many other contemporary centers of research; he shared his findings freely with contemporary colleagues and students of the American Indian at a time when much discussion focused on their origins and culture.
