		Fair value changes	40
Tax	(50)		
Discontinued activities	(10)	Net discontinued	135
Comprehensive income	90	Net discontinued	(145)

Source: Barker (2006, Table 4).  
This is an illustrative format only. Subtotals outside the total column are purposefully omitted. The information in the right-hand column provides a line-by-line disaggregation of items in the total column. The information is useful at this level of disaggregation, and no obvious informational benefit arises from the example's summing inventory impairments, disposal gains, and fair value changes in financial instruments. Numerous presentational issues are beyond the scope of this paper; for example, the separate presentation of a financing subunit, the presentation of separate line items for aggregations such as cost of sales and selling, general and administrative expenses, and the possible disaggregation of income tax expense. In practice, supporting data and disclosures in footnotes would supplement this statement.
