How an originality report is created

Guidelines for a Primer Title length up to 75 characters Standfirst length up to 260 characters Manuscript length ~1,000 words Our Primers are brief; please ensure that you do not exceed these limits
References 10 Our Primers contain few, necessary references Display items figures, text boxes, tables 1 Submitted figures must be publishable under the , thus, with few exceptions, we cannot accept previously

PLOS Biology: A Peer

The Primer should then explain what the findings suggest in terms of next steps: what new avenues of investigation are opened, what new experiments can be tried, what new ideas can now be tested going forward? Unlike traditional review articles, which include a comprehensive account of a field, Essays take an imaginative approach to a provocative question, with an engaging but rigorous investigation of the problem. The article should end with a discussion of possible means to a solution Unsolved Mysteries are peer-reviewed and commissioning does not guarantee publication.

FREE Plagiarism Checker: 100% Correct Result In One Click ☐

Commissioning does not guarantee publication. Be sure you state whether there is a variation of the achieved results and the hypothesis under review.

How an originality report is created

Discovery Reports describe novel and intriguing initial findings with the potential to lead to a significant new result for the field.

PLOS Biology: A Peer

The main point is to write the whole text in the past tense and the passive voice. Also, you can check out our editing and proofreading services.
