## History of Home Economics ~ HOME ECONOMICS UNIT

Women such as Maria Parloa and Fannie Farmer, both of whom taught at the famous Boston Cooking School, offered instruction in preparing healthful, low-cost meals. More recently, however, researchers in the field of women's history have been reevaluating home economics, developing an understanding of it as a profession that, although in some ways conservative in its outlook, opened up opportunities for women and had a broad impact on American society.

## North Carolina Bibliography, 1993

Some key events in the history of environmental science in the United States include: -George Perkins Marsh raised concerns in his book *Man and Nature* on the negative effects humans can have in the United States. Scholars are critically examining their traditional assumptions and preoccupations about human beings, their societies and their histories in light of developments that cut across disciplinary boundaries.

## History of the Human Sciences

During the Kennedy administration home economists were involved in USAID, the Peace Corps, and the Alliance for Progress in Latin America.
