Trump has not been alone in undermining American democracy

They also built into the Constitution a series of cooling mechanisms intended to inhibit the formulation of passionate factions, to ensure that reasonable majorities would prevail. As a former small newspaper publisher, I have had some solutions in mind for that puzzle, but none of them can solve it in the present circumstance, where a few gigantic platforms can largely monopolize all the advertising revenue there is. As a major example: In 1974, the Democrat-controlled Congress voted to abandon our obligations and let South Vietnam fall, by cutting off all aid and refusing to allow troop deployments.

BOOM! Grand Jury Indictments! Feds Charge Proud Boys With Conspiracy To Obstruct The EC Vote Count!!

Their search algorithm is performing exactly as would be expected. In my view the Democrats badly erred in not using these and other data points to sharply publicly DEMOLISH the Goebbelsian big lie Trump criminally-insanely foisted on his ardent supporters and ordinary Republicans—that he had won a presidential election he had lost—as I suggested in a comment to a brilliant NY Times essay on the attempted coup by Timothy Snyder. However, the doable solution is obvious, overrule Wickard, put the Commerce Clause back in its box, amend the Judiciary Act to change federal judges to 10 year terms and pass the Fair Tax, thereby eliministing the current tax code.

Glavin: American democracy is reeling, and it's not just because of Trump

. As many were quick to point out, peaceful black-lives-matter marches are in a separate universe from destructive thuggish invasions of the Capitol.

Capitol invasion by Trump mob the latest case of the U.S. being the true banana republic

Unless there is evidence of direct intent, Trump is likely to prevail at trial or on appeal.

Jeffrey Rosen on “Madison’s Nightmare”

Just as with regressive income taxes.

Russians see US democracy 'limping' after Capitol stormed

Biden, in his third run for the presidency, staked his candidacy less on any distinctive political ideology than on galvanizing a broad coalition of voters around the notion that Trump posed an existential threat to American democracy. Legal analysts who exaggerate or oversimplify criminal provisions face no criminal incitement, even as the public is sent into a frenzy with claims of slam dunk charges or easy prosecutions.
