Psychiatric, neurological, and psychoeducational characteristics of 15 death row inmates in the United States

Overall, thirteen federal prisoners were executed during the between July 2020 and January 2021. Proposed plea agreements that would require withdrawing a previously filed notice of intent to seek the death penalty should follow the procedures described in. § 3592 b - d ; 3 cases that involve the extradition of a defendant or crucial witness from a country that, as a pre-condition to extradition, requires assurances that the death penalty will not be sought for the defendant or the evidence obtained from the witness will not be used to seek the death penalty; 4 cases that involve a potential cooperator whose testimony is necessary to prosecute remaining offenders; and 5 any other case where the United States Attorney or Assistant Attorney General is able to recommend the death penalty not be sought without first receiving input from defense counsel.

The Northeast, the region with the lowest murder rate, has accounted for less than 1 percent of the executions. The United States Attorney or Assistant Attorney General, however, may agree to submit for the Attorney General's review and possible approval, a plea agreement relating to a capital-eligible offense or conduct that could be charged as a capital-eligible offense. Along with the problems of execution, the lives of prisoners on death row also deserve scrutiny.
