Moving walls are generally represented in years. .

## AMS :: Mathematics of Computation

For example, if the current year is 2008 and a journal has a 5 year moving wall, articles from the year 2002 are available. Mikhlin, Integral Equations and Their Applications to Certain Problems in Mechanics, Pergamon, London, 1964, MR 29 1508.

Note: In calculating the moving wall, the current year is not counted.
