Canna (plant)

When applying fertilizer, direct contact with the base and leaves should be avoided. Cannas are and subtropical flowering plants with large, banana-like leaves.

Canna Plant: Care and Growing Guide

In their homeland, the bloom by humming pollinated. Canna indica is suitable as an emergency crop in case of shortfalls due to its long durability in the ground.

Canna Plant: Care and Growing Guide

We are not only a source for combined expertise, but also unsurpassed passion, and are always pleased to assist. The large, paddle-like leaves come in a range of greens and blue-greens and can have variegation and stripes. Cannas' popularity and active hybridizing have resulted in a dazzling array of cannas to choose from, many with large, showy flowers and variegated leaves that look like stained glass when the sun shines through them.

Canna indica

They grow from perennial , but are frequently grown as annuals in temperate zones for an exotic or tropical look in the garden.
