Frances Peterson Petitpoint, Miniature Petitpoint Patterns for Dollhouses

They are simply for covering floors.

Rug Design, Motifs, and Patterns

Some of the more common motifs are: Boteh, Gul, Herati, Mina-Khani, Rosette, Shah Abbasi, Azari Kharchang and Islimi Floral.

Persian Rug Patterns

Original pattern drawn on paper with a colour guide, noting the wool brands I was buying! Silk gauze is also available for stitching your petitpoint rugs, carpets, pillows and cushions. Stages in making the rug I had to break the rule of working row-by-row when working this rug, so I could fine-tune the design as I went.

Persian Rug Patterns

A pear-shaped figure usually used in the field of an all-over repeat layout. Small motifs in repeating columns, such as the Herati or botteh, create the pattern.

Rug Design, Motifs, and Patterns

Another example of unidirectional design is the Tree of Life.

Charted Designs

A nice Italian booklet of patterns that can be worked in cross-stitch, tapestry-stitch half-cross or tent stitch or rug-knotted. Old rug charts may be in black and white using symbols for colours or colour.

Rug Design, Motifs, and Patterns

Hand-made rugs are more valuable than machine-made rugs. I am happy to be able to collaborate with them and keep their designs available.
