## Education and Road Safety

On the Move is a repository for all secondary school RSE resources. Always Pay Attention and Listen to Warnings Teach them the importance of staying alert and attentive while moving through roads. Once they notice a threat it is easier to move away from it well in advance.

## Introducing ‘Stop, Look, Listen, Think’ to cross the road safely

Safer Kids: Challenges and Choices is a professional learning workshop that unpacks the resource, provides participants with up-to-date road safety information and statistics, and ideas and activities that can be transferred straight into the classroom.

## Homepage

Our Education Officers are qualified teachers who will enthuse and educate your students through a variety of teaching methods including demonstrations, interactive activities and meaningful discussions. Early years This section provides information on programs, resources and professional learning that helps early childhood educators and parents deliver developmentally appropriate road safety education to prepare young children to become safe and independent road users.

## Top 18 Road Safety Rules to Teach Your Students

The Road Traffic Management Corporation has been tasked with providing road safety education.

## Introducing ‘Stop, Look, Listen, Think’ to cross the road safely

The workshop is run by the RAC in metropolitan schools and by SDERA Consultants in regional locations. Catalogue Persistent Identifier APA Citation New Zealand. Even while crossing such tracks it is of high importance that we co-operate with the crossing security and not try to rush in for any reason.

## **Primary school program**

These programs are funded by the Road Safety Commission and contribute to the road safety strategy in Western Australia. Walking or riding your bicycle to school, staying safe on the bus and playground and knowing how to protect yourself from a bully, is all important information to know. STOPPING Have the class walk in single file around the outside of a basketball court or similar sized area, keeping about half a metre from the person in front.

### **For Educators**

In an open space, simulate a road environment. Teach them the basic signals at first and gradually make them aware of the other signals too.
