Bourbaki, pour les rendre plus accessibles ; ils pourront aussi en introduire quelques outils ou des motivations plus lointaines.

### seminaire bourbaki

There are a series of talks on physics inspired by the Bourbaki seminars on mathematics. This is an extension on Paul's answer, but it would have been too extensive of an edit so I posted this separately.

It is named after , a group of French and other mathematicians of variable membership. There is a series of seminars in fact public lectures with printed notes distributed that has been held in Paris since 1948. EDIT: and, to make clearer what has been so obvious to me for decades that I'd failed to explain it in the question.
