## 4.10 AGRICULTURAL

The data for the agricultural year 2016—17 are now available, and allow us to study recent trends in agricultural and rural labour wage rates. We checked the reliability of the data using unit-level data provided by the NSSO and concluded that WRRI data are likely to be reliable.

### Analytical Reports

In short, the trend of rising agricultural wage rates was an all-India phenomenon. Lessons can also be drawn from the work of Sankalpa Rural Development Society SRDS which has been training farmers of Karnataka on revival of defunct borewells. Determination of optimal epsilon Eps value on DBSCAN algorithm to clustering data on peatland hotspots in Sumatra.

## 4.10 AGRICULTURAL

After an initial thrust the public sector investment in agriculture decelerated considerably. However, several of the new infrastructure projects are witnessing delays, with land related issues often being a key factor.

### Analytical Reports

District-wise estimated normal monthly rainfall and temperature for all the twelve months are provided in the data set. Under the Jawaharlal Nehru National Urban Renewal Mission JNNURM, one of the mandatory state level reforms was to rationalise stamp duty and bring it down to less than 5% by 2018.

### Agriculture statistics

Processes such as surveys and re-surveys, which would help update the spatial records have been going on at a slow pace due to the huge volume of records. Pantazi XE, Moshou D, Alexandridis T, Mouazen AM. In the past, surveys to update land records have not been undertaken or completed, and maps have not been used to establish actual property boundaries on the ground.

### Analytical Reports

In addition, agricultural diversification by small and marginal farmers towards high value crops rendered them food insecure and added to malnutrition problem.

### **Agro Waste**

C Nagaraj, Principal, Nitte Meenakshi Institute of Technology for giving constant encouragement and support to carry out research at NMIT. PAM and CLARA are used to cluster the data based on the districts which are producing maximum crop production In proposed work wheat crop is considered as example. · However, the pace of modernisation of records and bringing them to an online platform has been slow.
