However, as we learn more about fish and fish communities at different depths, we are building insights into what constitutes a healthy ecosystem, in turn establishing knowledge needed to help managers make the right decisions to conserve resources for future generations. Dive sites are expected to include deep-sea coral and sponge habitats, maritime heritage sites, submarine canyons, and cold seeps. He has attributed his early interest in to reading the 1870 novel , living by the ocean in San Diego, and his fascination with the groundbreaking expeditions of the.

Portholes will soon be overlooked for far more rewarding discoveries. This offshore wreck was first discovered and later positively identified by Atlantic Divers. If you camera lets you do both then your in for some good shots.

**ATLANTIC DIVERS**

She recalls a submersible dive that involved the excitement of her first sighting and capture of a lionfish off the coast of North Carolina.

**underwater photography wreck diving shipwrecks brad sheard**

DO NOT DISTURB OR RECOVER THESE! Unrehearsed, yet working in regimented unison, my comrades began the arduous task on the dangerous glassy rocks. On the night of March 31, the Atlantic steamed toward the red light of what Captain Williams believed was Sambro Lighthouse. Just a small wooden beam

## **NOAA Office of General Counsel International Section**

The Francis Perkins was a Pilot Boat that sunk in 1887 in 80 feet of water.
