Improving Women's Health: Challenges, Access and Prevention

Translating research into practice: Transitional care for older adults.

Improving Women's Health: Challenges, Access and Prevention

This specialization covers illness and aging, including polypharmacy management, palliative care, and end-of-life considerations. Nurses can become informed about current market wages for their region of employment in order to negotiate or seek employment with appropriate compensation.

Public Health or Community Nursing

Students in this specialization train to provide care to mental health clients across the lifespan using contemporary psychotherapy modalities and knowledge of psychopharmacology. Medicaid disease management services can save states money and help minimize complications. According to the , preventable dental conditions were the primary reason for more than 800,000 emergency room visits in 2009.

Transforming Nursing Education to Meet Emerging Health Care Needs

Many states have adopted similar awareness efforts. Journal of Clinical Nursing, 22, 1970- 1976.
