This will deliver a set of lesson plans that the tutor can use. They can then solve the equations to determine the sea level change for a specified number of years in those areas.

#### Pre

It is simply a compilation of lessons that are starting points for a particular concept or skill, arranged by standard. The Curriculum Companion is not a curriculum for ARI. What equation can represent the amount of money a family can spend on groceries in relation to the number of plastic bags they use for the groceries? Each lesson includes theory, examples and a video.
