### About Earth Sciences (EAR)

All of us live on the planet Earth. Then choose one of the other links to read more on animals or plants or the water.

### Science — Earth Science

You can do this any number of ways. Unit 9 — Natural Resources This unit discusses renewable and non-renewable resources, with special emphasis on fossil fuels, conservation and recycling.

### Earth Science Agency

If you can, use different colors. I appreciate all of the focus and dedication they have given to perfecting their system and look forward to continuing our relationship in the future. Each week has five daily lessons; for lesson one, students define vocabulary words using the glossary.

### Earth Science for Kids: Overview

Everything else about them is similar.

### Sustainable solutions for our most valuable resources

This field includes the investigation of relevant terrestrial features—namely, tektites glassy objects resulting from impacts and astroblemes meteorite craters.

### Earth and Space Sciences at the University of Washington

Here are some pictures for inspiration. The , , , , and are the five layers which make up Earth's atmosphere. They also alternate between boy and girl names.

### Science — Earth Science

Many of your lessons below have an internet link for you to click on.
