Welcome to Vititalk

What information is still awaited for Vitrakvi? Vitrakvi is used in patients whose tumours are advanced, have spread to other parts of the body or are not amenable to surgery, and who have no satisfactory alternative treatments. The in Vitrakvi, larotrectinib, blocks the action of this protein, preventing the excessive growth of cancer cells and thereby slowing down the worsening of the cancer. Shikoni të gjitha shpalljet bazuar në kërkimin tuaj Shitet Vetura Viti ose regjistroni një shpallje tani duke treguar se çfarë është ajo që blini ose shisni dhe përdorni të gjitha avantazhet që vijnë nga të reklamuarit në MerrJep.

Vetura

Every year, the Agency will review any new information that becomes available and this overview will be updated as necessary.

Vetura

Protegat line provides products of high performance, which are both cost effective and easy to use. Tumours with NTRK gene fusion produce an abnormal protein TRK fusion protein, which causes the uncontrolled growth of cancer cells. Since Vitrakvi has been given conditional authorisation, the company that markets Vitrakvi will provide further data on its effects.

Vitrakvi

Most side effects are mild to moderate.

Vetura

Side effects reported with Vitrakvi are carefully evaluated and any necessary action taken to protect patients. Vitrakvi is available as a liquid 20 mg per ml and capsules 25 and 100 mg and is taken by mouth.
