Georges Braque

His father and grandfather, both amateur artists, were the owners of a prosperous house-painting firm. Many of his earliest works between 1902 and 1904, were Impressionist in nature.

George Braque(1882

He began to focus more so on real interpretations, and focused much of his work on nature, and natural light. Darker colors and dark scenes were much of what he painted. Although he did have issues with his health a majority of his life, this did not stop him from leading a new art movement, and developing one of the most famous art movements to transpire during the 20th century in the art world.

French Cubist Georges Braque

He also began to introduce sand and sawdust onto his canvases. The sheet is in good condition Braque was one of the most important artist of the 20th as Salvador Dali, Andy Warhol, Damien Hirst, Chillida, Egon Schiele, Banksy or Roy Lichtenstein.
