### Seeing Without Eyes

Most eye floaters are caused by age-related changes that occur as the jelly-like substance vitreous inside your eyes becomes more liquid.

### Eye floaters

Cryptochromes were , where they control growth and annual reproductive changes.

Filesize: 33.104 MB

### 'Seeing' without eyes: Hydra stinging cells respond to light

Although floaters may be present at any age, they become more common as you get older, as the vitreous gel shrinks and aggregates. Visual symptoms don't last long.

### Are You Seeing Images That Aren't There?

The advent of inexpensive and efficient molecular genetic technologies has made the search for opsins a cottage industry in laboratories worldwide.

### If You're Seeing Eye Floaters or Flashes, Here's What to Do About Them

The double vision continues even when the other eye is covered.

### Test your vision

However, a sudden increase in floaters and seeing flashing lights may signal retinal detachment. To do this, your doctor will ask you to cover one eye and then the other. Bates Method International Welcome to Seeing.

## **Dr Katharina Friedrich**

. In practice, this means that you unconsciously compare the volume of a particular sound in each of your ears, and assume the louder side is the one that the sound came from. But scientists have discovered in recent decades that — including human beings — do have specialized light-detecting molecules in unexpected places, outside of the eyes.

### **How Human Echolocation Allows People to See Without Using Their Eyes**

Another person saw an entire dinner party in her dining room! Occurrence most often results from surgery to remove congenital. Posterior uveitis is inflammation in the layers of the uvea in the back of the eye.
