

Pressure groups

H.M.S.O. - Pressure Group & Stakeholders

Are Pressure Groups Good or Bad for Democracy?	
Good <ul style="list-style-type: none"> • Allow participation in democratic process • Can raise awareness between elections • Give minority groups a voice • Raise issues of importance • Make decision makers aware • For each of these you would need to illustrate with examples 	Bad <ul style="list-style-type: none"> • Some groups more powerful than others • Money talks • Insider groups have privileged access • Secret deals are bad for democracy • No pressure group represents over 50% of public • Should not hold government to ransom • Should not break the law • Again illustrate with examples

pressure

They many a times resort to un-constitutional means like violence; Naxalite movement started in 1967 in West Bengal is one such example.

Outsider pressure group

These are the fastest growing group in America with regards to putting pressure on government. Sectional Pressure Groups : these work to defend and promote the interest of specific social groups in American society. The members of this group are professionals who are already a part of the government machinery.

The Astonishing Power of Social Pressure

Political correctness is a crashing bore. A pressure group is a group of people with specific aims and interests. Pressure groups also act as a sense of specialist knowledge, and often have access to information that is highly valued by decision makers.

Pressure Groups in America

These actions have provided benefits not only to the homeless, they have also positively affected the well-being of entire communities.
