About Mining

Allow the stakeholder input to guide the depth of discussion of impacts in the NEPA document. Stormwater discharges are regulated by NPDES permits.

Environmental

This approach takes into account the effectiveness of each stormwater practice, the costs of each practice, and resulting overall cost and effectiveness rather than looking at each practice in isolation.

Manual of best management practices for the mining industry in Idaho (1992 edition)

Administered by the US Army Corps of Engineers USACE. Please see the for more information on this process. Planner, Programs — Stormwater 208 334-8631 State Hwy.

Environmental

Architectural historians complete detailed written descriptions of the property, document the property using photography and sketch maps, and conduct in-depth archival research to better understand the local, state, or national significance of the property. The presentation focused on some interesting aspects of obtaining a result on desirability per the noise policy. March 28, 2019 US Army Corps of Engineers, Walla Walla District New Wetland Delineation Guidance ITD HQ Auditorium 3311 W State St Boise Presenter: Shane Skaar January 24, 2019 The Narrows Presenter: Nathan Cleaver, Keller Associates A presentation was given on the Environmental Assessment EA jointly prepared for two interrelated projects; Old Hwy 37 The Narrows and Rock Creek Restoration.
