## Chief Inspector's Annual Reports

Additional cases continued to be reported, including among those who used asbestos products rather than manufactured them continued to appear.

## Department of Public Health Annual Reports, Pittsburgh, Pennsylvania

Inspectors aid in the betterment of the community through consistent reinforcement of health mandates.

## Public Health Inspector: Job Description, Duties and Salary Info

Public health inspectors check the sanitary conditions of various establishments, making sure they're up to par with health regulations and codes. Public health inspectors respond to questions regarding documented violations, prepare detailed reports and maintain inspection records.

## FSIS Data Analysis and Reporting: Public Health Regulations FY 2022

Public Health Inspector: Job Description, Duties and Salary Info.

## Classic papers in Public Health: Annual Report of the Chief Inspector of Factories for the Year 1947 by E.R.A. Merewether

In later years, the department was divided into three Bureaus: Infectious Diseases, Sanitation, and Food Inspection. The entire collection is online. Any identifiable and remediable risk factor for TB attracted considerable attention, and exposure to dusty conditions at work was high on the list of suspects.

## **Chief Inspector's Annual Reports**

In the 22 years preceding the Annual Report there were 235 deaths ascribed to asbestosis at the time of death or for which asbestosis was proven at autopsy. FSIS Data Analysis and Reporting: Public Health Regulations FY 2022 Public Health Regulations PHRs are verified regulations with statistically higher individual noncompliance rates in establishments in the three months prior to a microbiological positive or a public health-related enforcement action than in establishments with no positives or enforcement actions. FSIS reviews the list annually, as recommended by NACMPI, and makes updates as needed.

### **FSIS Data Analysis and Reporting: Public Health Regulations FY 2022**

Asbestosis could carry its victims off in a decade but lung cancer usually took 15, 20 or more years to develop.
