Basic facts on Patents

However, according to a well-established principle, copyright protection extends only to expressions, not to ideas, procedures, methods of operation, or mathematical concepts as such. Finally, you have to consider the possibility that someone else may patent your invention first.

Quick Facts about Patents and Trademarks

Action may be taken against the importer, the distributor and anyone who subsequently deals in the infringing product. While there is no legal limit to how many patents one person can apply for, they must have the capacity to invent each new thing before submitting an application.

Get the Basic Facts About Trademarks

Using International Time Zones Sometimes it is possible to forward a patent application to a patent attorney for filing in a country which, due to the international dateline, is actually in a time zone equal to the date before the disclosure, thereby securing protection when, otherwise, all could have been lost. The United States Patent and Trademark Office USPTO is a fee-funded agency of the U.

Frequently Asked Questions: Patents

In other countries, patent applications are generally published 18 months from the filing date or, where priority has been claimed, the priority date for more details, see the website of your. The practising or working of an invention by a licensee is, generally considered to be the equivalent to the working of the invention by the patent holder.
