What Liberalism Can Learn from What It Took to Defeat Donald Trump

In the aftermath of independence, most Hispanic American nations produced written constitutions as early as 1811 in Venezuela, New Granada former Colombia, and Chile. This initial constitutionalism did indeed bring great changes with it: the constitutional protection of freedom of thought and of the press ended the traditional limits on the free circulation of printed materials and allowed for an explosion in the number of periodical publications in which people for the first time openly discussed political issues. Though such a political movement began to take shape in the aftermath of the wars of independence from Spain and Portugal, self-identification as a member of a liberal group became possible around the mid-century when the liberal position became more definite in relation to the conservative political opposition.

While liberals usually pushed for disestablishment, conservatives favored the opposite. Throughout the developed world, the political Right has spent a decade denouncing the modest measures of fiscal stimulus adopted in response to the GFC by governments including the in the U. Housing vouchers substantially reward landlords who use the vouchers to fill empty houses with poor people until the neighborhood gentrifies, at which point the owner is free to quit the program and charge market rentals.

Independent Liberal

Liberalism was the dominant political discourse in Latin America during most of the nineteenth century.

However, Marxists such as Rosa Luxemburg, Clara Zetkin, and Alexandra Kollontai, who are supporters of radical social equality for women and have rejected and opposed liberal Western feminism because they considered it to be a capitalist ideology. In regimes that border on neofascist, klepto-capitalists get along just fine with dictators, undermining the neoliberal premise of capitalism and democracy as complements. Mills traces the problem back to the origins of modern liberalism, when liberal thinkers such as Kant and Locke limited the question of moral and political equality to whites, at the same time that European powers were enslaving and oppressing nonwhite peoples.
