Bacteria Blaster (solution) Port Royal Distillers Inc.

Garnet is a gemstone with excellent naturally abrasive properties. New innovation The patented Bristle Blaster ® is the first hand-held brush belt system in the world that produces a quality of surface roughness and a result comparable to that achieved by sandblasting. Bristle Blaster ® and MBX ® make use of two different technologies and are not compatible with one another.

Bug Blaster®

A coating is only as good as the preparation of the underlying surface. Consequently, an adapter system should be replaced after approximately 50 operating hours.

Bug Blaster®

This makes Bristle Blaster ® the perfect technology to perform surface preparation for spot-repairs, touch-up jobs and preparing welds. A technical director from the sole, official UK and Ireland distributor of the Bristle Blaster® will respond to your enquiry.

Bristle Blaster Handheld Surface Preparation Tool
